

Reading:

Class Text: We will be finishing reading both There's a Boy in the Girls' Bathroom and Letters from the Lighthouse for our reading for enjoyment topic.

IN guided reading we will be looking at longer extracts from Kensukes Kingdom by Michael Morpurgo as well as The 1000 Year Old Boy. We will look at all reading skills and examine different question styles as well as familiarising ourselves with SAT's style questions.

Writing:

We'll be examining the visual text "Paperman" and looking at refining our grammar and writing skills through this/ We will learn new grammatical terms and extend our knowledge of active and passive voice as well as using punctuation effectively.

This term we will be completing more extended writing opportunities in our English lessons, notably our "Writing for Enjoyment" sessions!

Science:

Diet, Drugs and Lifestyle

Looking at the healthy diet and the five key food groups and the function of how each group helps us to stay healthy. We will consider what a drug is and how exercise can help improve our bodies.

Circulatory System

Understanding the nature of blood and does blood flow through the system. How the heart works.

Computing:

Spreadsheets: We will be using Microsoft Excel to organise, present and manipulate data in spreadsheets and also as graphs. We will present, format and analyse data as well as solving mathematical problems, including using formulae.

Blogging: We will be learning how to write a successful blog and the benefits of blogging. We will understand the importance of blogs being approved by an adult.

Maths:

We've done some great work consolidating and building on previous learning during Autumn term. We've spent a long time reinforcing the arithmetic skills. Now we're going to work on applying them, to reasoning questions.

Number and place value: Recognition of whole numbers up to 6 digits including decimals. Comparing positive and negative integers. Missing number questions. Recognising odd/even/square/triangular and prime numbers. We will also introduce Algebra, using formulae.

Calculations: Consolidating skills of long multiplication and division. Calculate efficiently using decimals. Solving missing number problems

Fractions, Decimals and Percentages: equivalent fractions, changing fractions and decimals into percentages. Finding percentages of a number. We will start to look at the concept of ratio.

Measurement: Convert between g/kg, mm/cm/m/km. compare metric and imperial units.

RE: We will look at how people of different faiths understand the concept of God. Focussing on how Muslims understand God.

Year 6

Spring Term 2024

Curriculum Map

PHSE:

Me in the World: We will examine how charities operate and the benefits of them as well as pressure groups and how they have an impact on society.

Me and My relationships: We will look at how friendships and relationships change as we get older and how we can adapt to this.

In addition, we will have our Puberty talk.

History: What does the Census tell us about the local area. Looking a range of history sources. Finding out about how life changed for residents during Victorian times using the census.

Geography:

World Trade:

Exploring which countries in the world are well-known for world trade and what they trade. We will look at why world trade happens and how it benefits countries. We will look at what importing and exporting means and how this looks in real terms.

We will be thinking about supply chains and how they are seen across the world as well as the purpose of them.

Visits/Events:

TBC

Challenge:

Collect census data!

Think about something that we could create and then sell to people to support Fairtrade.

Art: We will develop the idea of art and craft and collage, looking specifically at photography and how photographs can be montaged to create a composition. We will also look at editing photographs and turning them into a drawn image.

D&T: We will look at designing and making a bag using fabric and sewing.

French: We will continue to look at French footballers as well as looking at French houses using language of household objects and what we would find in French households.

Music:

Charanga: Music lessons will consist of how music is used across the world and how it improves our world as well as how it is part of our community.

PE:

Developing skills and attributes in dance focussing on British Dance styles and circuit training to improve our stamina and fitness levels.
