

ST. ANNE'S C.E.(C) PRIMARY SCHOOL

EARLY YEARS OUTDOOR AREA POLICY

'Together With God, Making Learning a Life Long Friend'

Approved:	Summer 2021
Review Date:	Summer 2023

We are a Church of England School and our policies are written with a commitment to our Christian Character, which is rooted in the Bible.

Start children off on the way they should go and even when they are old they will not turn from it (Proverbs 22:6)

1. Introduction

At St Anne's Primary School our aim is to provide a rich and varied environment indoors and outdoors that supports children's learning and development. The outdoor environment will give the children the confidence to explore and learn in a secure and safe, yet challenging space. All areas of learning will be available outdoors and children will have free flow access to the outdoor environment at all times. The outdoor environment will be checked regularly to ensure there are no hazards or security risks. A daily risk assessment will take place.

We recognise that:

- Learning outdoors has a positive effect on children's sense of well - being and helps all aspects of children's development.
- Learning outdoors offers opportunities for doing things in different ways and on different scales than when indoors.
- Learning outdoors enables children to experience first-hand changes in the weather, seasons and the natural world.
- Some children prefer to learn outside rather than inside.

We will ensure that:

- The area is stimulating and welcoming, reflecting all areas of learning and specific interests of the children.
- All practitioners recognise the importance of outdoor learning and participate regularly in activities both indoors and outdoors.
- All practitioners are involved in planning and resourcing the outdoor environment with the Teacher taking the lead in this area.
- Children opportunities to develop their gross motor skills through large construction, balancing equipment, bikes, and scooters, large scale art work and imaginative play.

- Practitioners understand the importance of engaging the children in stimulating learning experiences, interacting with the children and encouraging the use of language to extend their understanding. Children will be encouraged to communicate with one another and with the adults in the settling at all times.
- Practitioners encourage children to ask questions and find answers through first hand experiences. Through sensitive questioning the children will be encouraged to think deeply and to extend their learning.
- Activities will be a balance of adult - led and child initiated learning.
- Adults model good language skills and encourage children to participate in role play activities and scenarios which will stimulate and excite their imagination. Adults may need to play a particular role in order to encourage less confident children to become involved.
- All children are encouraged to show respect towards one another by sharing, taking turns, using language such as 'please' and 'thank you' and showing consideration towards others.
- The children are encouraged to be independent learners, following their own interests, accessing their own resources and helping to tidy the environment at the end of each session.

Adults and children will ensure that at the end of the day:

- All equipment is placed in the correct boxes
- The floor is free of toys, chalks, etc.
- All resources are returned to the sheds
- The sheds are securely locked
- The floor is swept and the area if left tidy for the next day.

2. Monitoring and review

This policy is monitored by the governing body, and will be reviewed in two years, or earlier if necessary.
