

Reading:

Class Text: We will start by reading *There's a Boy in the Girls' Bathroom* and then voting on our next class text for enjoyment.

Fairtrade

In guided reading we will be looking at longer extracts from *Kensuke's Kingdom*. We will look at all reading skills and examine different question styles as well as familiarising ourselves with SAT's style questions and improving our fluency.

Writing:

We'll be finishing the visual text *Paperman* as well as using the speeches of Greta Thunberg to explore persuasive writing. We will be looking at refining our grammar and writing skills through this as well as learning new grammatical terms and extend our knowledge of active and passive voice as well as using punctuation effectively.

This term we will be completing more extended writing opportunities in our English lessons, notably our "Writing for Enjoyment" sessions!

RE: We will look at how people of different faiths understand the concept of God. Focussing on how Muslims understand God.

History:

Following our short Geography unit, we will move on to History and look at Crime and Punishment. During this unit, we will be looking at how crime and punishment has evolved over the years spanning Roman times to present day. We will also look at how the police force has evolved.

Geography:

World Trade:

Exploring which countries in the world are well-known for world trade and what they trade. We will look at why world trade happens and how it benefits countries. We will look at what importing and exporting means and how this looks in real terms.

We will be thinking about supply chains and how they are seen across the world as well as the purpose of them. This will feed into is exploring Fairtrade and how this benefits the world.

Science:

Diet, Drugs and Lifestyle

Looking at the healthy diet and the five key food groups and the function of how each group helps us to stay healthy. We will consider what a drug is and how exercise can help improve our bodies.

Circulatory System

Understanding the nature of blood and does blood flow through the system. How the heart works.

Computing:

Data Detectives:

This unit introduces children to Data Detectives, an interactive set of databases challenges that children work through. Children will be expected to interpret information being requested and query databases to find the information.

Blogging: We will be learning how to write a successful blog and the benefits of blogging. We will understand the importance of blogs being approved by an adult.

Python Coding: Children will learn some of the key language rules for Python. By the end of the unit, children will have outputted text to the screen, used loops to repeat code and made a sprite move by coding it.

Year 6

Spring Term 2026 Curriculum Map

Visits/Events:

RAF Cosford

Challenge:

Think about something that we could create and then sell to people to support Fairtrade.

Maths:

We've done some great work consolidating and building on previous learning during Autumn term. We've spent a long time reinforcing the arithmetic skills. Now we're going to work on applying them, to reasoning questions.

Number and place value: Recognition of whole numbers up to 6 digits including decimals. Comparing positive and negative integers. Missing number questions. Recognising odd/even/square/triangular and prime numbers. We will also introduce Algebra, using formulae.

Calculations: Consolidating skills of long multiplication and division. Calculate efficiently using decimals. Solving missing number problems

Fractions, Decimals and Percentages: equivalent fractions, changing fractions and decimals into percentages. Finding percentages of a number. We will start to look at the concept of ratio.

Measurement: Convert between g/kg, mm/cm/m/km. compare metric and imperial units.

PHSE:

Health and wellbeing We will continue to look at how to be healthy and taking responsibility for your own health both physical and mental.

Health and wellbeing- safety and the changing body We will discuss social media, good and bad habits and the physical and emotional changes of puberty.

In addition, we will have our Puberty talk which we will be in touch about separately.

Art: This term we will create symbolic and expressive drawings. We will look at the impact of techniques and messages within artwork. This unit encourages children to form their own opinions about art.

D&T: This term we will create an automata toy for a window display. We will develop skills following the design, make evaluate idea using cams, followers and axles to create movement.

French: We will be looking at French houses using language of household objects and what we would find in French households.

Music: *Charanga*: Music lessons will consist of how music is used across the world and how it improves our world as well as how it is part of our community.

PE:

Developing skills and attributes in dance focussing on British Dance styles and circuit training to improve our stamina and fitness levels.
